

SHT Low Pressure Calibrator

SHT Low Pressure Calibration design to perform calibration for low pressure gauge such as SHT Deck Pressure Gauge.

FEATURE AND ADVANTAGE

- ✓ Digital Reference Gauge
- ✓ Designed for low pressure gauge calibration
- ✓ Manual hand pump
- ✓ On/off valve
- ✓ Comes with digital gauge calibration certificate
- ✓ Comes with durable transport casing

PRODUCT SPECIFICATION

- Digital Reference Gauge
- Measuring range: 0~40kPa
- Display mode: 5-digit LCD display
- Working temperature: -20~70°C
- Long-term stability: $\pm 0.2\%FS/year$
- Manual hand pump
- On/off valve
- Weight: 0.65kg
- Dimension: 300mmW x 300mmD x 45mmH
